

## SR 300 Temporary Road Closures May 17-20 and May 24-27, 2010

- What:** Temporary road closures on SR 300
- Where:** SR 300 between SR 3 and Clifton Road (see map on reverse for details)
- When:** May 17 – 20, 2010 (24 hours)  
May 24 – 27, 2010 (night work only, 7 p.m. – 5 a.m.)

### Will there be access to my business during construction?

Yes. SR 300 will be closed to through traffic but you and your customers will be able to access your business. SR 300 will only be closed from SR 3 through the Shell Station in front of QFC. Clifton Road, Belfair Street and Old Belfair Highway, and the 4-way stop will remain open during this work.

Flaggers will continue to direct traffic around the work areas. Signage will direct drivers passing through to use alternate routes.

### Will the road closure affect Memorial Day traffic?

No, the contractor will be opening the road up to traffic over the weekend (May 21-23) and the work on SR 300 is expected to be complete on May 27 before the Memorial Day holiday.

### What type of work is being done on SR 300?

Contractors are connecting pipes from the bore pit in front of the Sherriff's Annex to a receiving pit on SR 300. They will then continue to excavate and lay conveyance lines and side sewers with an open cut along SR 300.

### How long will this area of SR 300 be closed?

Contractors anticipate that this work will be completed in two weeks. In the event that work continues after May 27, the road will be open on May 28 – 31 to accommodate Memorial Day traffic.

### What is the Belfair Wastewater and Water Reclamation Facilities Project?

This project will convert septic systems within key areas of the Belfair Urban Growth Area to an environmentally-friendly, county-operated sewer utility. These wastewater facilities are needed to provide a sustainable approach to water management that protects Hood Canal and treats wastewater to Class A standards for water reuse. Reuse of treated wastewater provides the highest and best use of local resources and protects Hood Canal. On a long-term basis the project will support the backbone for urban infrastructure in Belfair as mandated by the Growth Management Act.
