

Side Sewer Construction Contractors Resource List

Updated 4/29/11

Mason County is providing this list to property owners as a resource in getting bids and hiring a contractor to build side sewers for the Belfair Wastewater and Water Reclamation Facilities Project.

Contractor Hiring Tips

In providing this list, Mason County does not guarantee the work of these contractors and cannot be held liable for any potential issues that may arise during in hiring or construction.

When hiring any contractor for private property work, you can help achieve a good fit for you as a property owner by doing your homework:

- Request and check references.
- Contact multiple contractors and ask for written bid prices.
- Evaluate all aspects of the bids, including scope of work, warranties, time frame and price.
- Come to an agreement with your contractor prior to work beginning for potential cost overruns, or what might constitute cost overruns.
- Double-check current contractor status with the Department of Labor & Industries by visiting their website: <https://fortress.wa.gov/lni/bbip/Search.aspx>
